

Sumter Electric Membership Corporation
School Time-of-Use Service
Schedule SCH-TOU-10

Availability

Throughout the Corporation's service area from existing lines of adequate capacity.

Applicability

Applicable to public or private educational institutions or universities for redistribution, provided that service hereunder is supplied at a single delivery point through a single meter. New consumers must contract for at least 200 kW of electric service including lighting, heating and power. Existing consumers must demonstrate metered kilowatt demands exceeding 200 kW. Service hereunder is subject to the established Service Rules and Regulations of the Corporation.

Type of Service

Multi-phase, 60 Hertz, at available secondary voltages, or at other voltages as might be mutually agreeable. Service under this rate will be provided with demand being measured through the use of metering equipment capable of determining the member's demand during any specific time interval.

Monthly Rate

A. Service Charge @ \$150.00 per month

B. Demand Charges:

Maximum Demand

First 1,500 kW per month @ \$2.50 per kW

Over 1,500 kW per month @ \$1.75 per kW

PLUS

All On-Peak Demand per month @ \$3.50 per kW

C. Energy Charges:

First 300,000 kWh per month @ 9.70¢ per kWh

Over 300,000 kWh per month @ 8.10¢ per kWh

D. WPCA - The above rate charges shall be increased or decreased in accordance with the Corporation's Wholesale Power Cost Adjustment Clause.

Schedule SCH-TOU-10
Page 2

Determination of Maximum Demand

The Maximum Demand shall be the highest 30-minute kW measurement in the current month.

Determination of On-Peak Demand

The On-Peak Demand shall be the average of the highest monthly 60-minute kW measurements during the on-peak hours in each of the four preceding months of June through September. The on-peak hours shall be the hours beginning 4:00 p.m. and ending 9:00 p.m. from June 1 through September 30 and will exclude weekends (Saturdays and Sundays).

This On-Peak Demand so determined shall be effective for monthly billing from January through December for the following calendar year.

Minimum Monthly Charge

The minimum monthly charge shall be the greatest of:

- A. The sum of Service, Demand and Energy charges as stated above, or
- B. A charge of \$1.25 per kVA of required transformer capacity, or
- C. The charge as may be specified in the Agreement for Electric Service Contract.

Line Extension Cost

The amount specified under the line extension and rephasing policy contained in the Service Rules and Regulations of the Corporation, such amount to be provided by the member in a manner specified in that policy.

Terms of Payment

Bills are due when rendered monthly. In the event the current monthly bill is not paid within fifteen days of the billing date, the bill becomes delinquent.

Term of Contract

Contract term of service hereunder shall be based upon the investment required to provide service and the member's projected annual revenue.
